

E. W. KLEIN & COMPANY
Engineered Equipment Since 1921

Announcement:

E. W. Klein & Company is pleased to announce that they now represent GEA PHE Systems, an internationally renowned manufacturer of high-performance plate heat exchangers.

GEA, with worldwide headquarters in Germany, has opened a new state-of-the-art manufacturing facility in York, Pennsylvania and is aggressively serving US industries. As manufacturers of gasketed and fully welded heat exchangers GEA provides specialized thermal transfer solutions for just about every industrial application throughout the world. With GEA you get the benefit of worldwide engineering expertise focused on delivering the best possible, most cost effective solution for your individual heat exchanger requirements.

GEA provides solutions engineered to your specific requirements and service second to none.

With a global network of locations and round-the-clock service, seven days a week, we are at your disposal anytime, anywhere. Our services are backed up by 20 years of experience in after-sales & service and by the competence of GEA PHE Systems as a leading international manufacturer of high-performance plate heat exchangers.
